

L-Series vSpace™ para Linux Ubuntu 8.10

Instalando o vSpace no Ubuntu 8.10

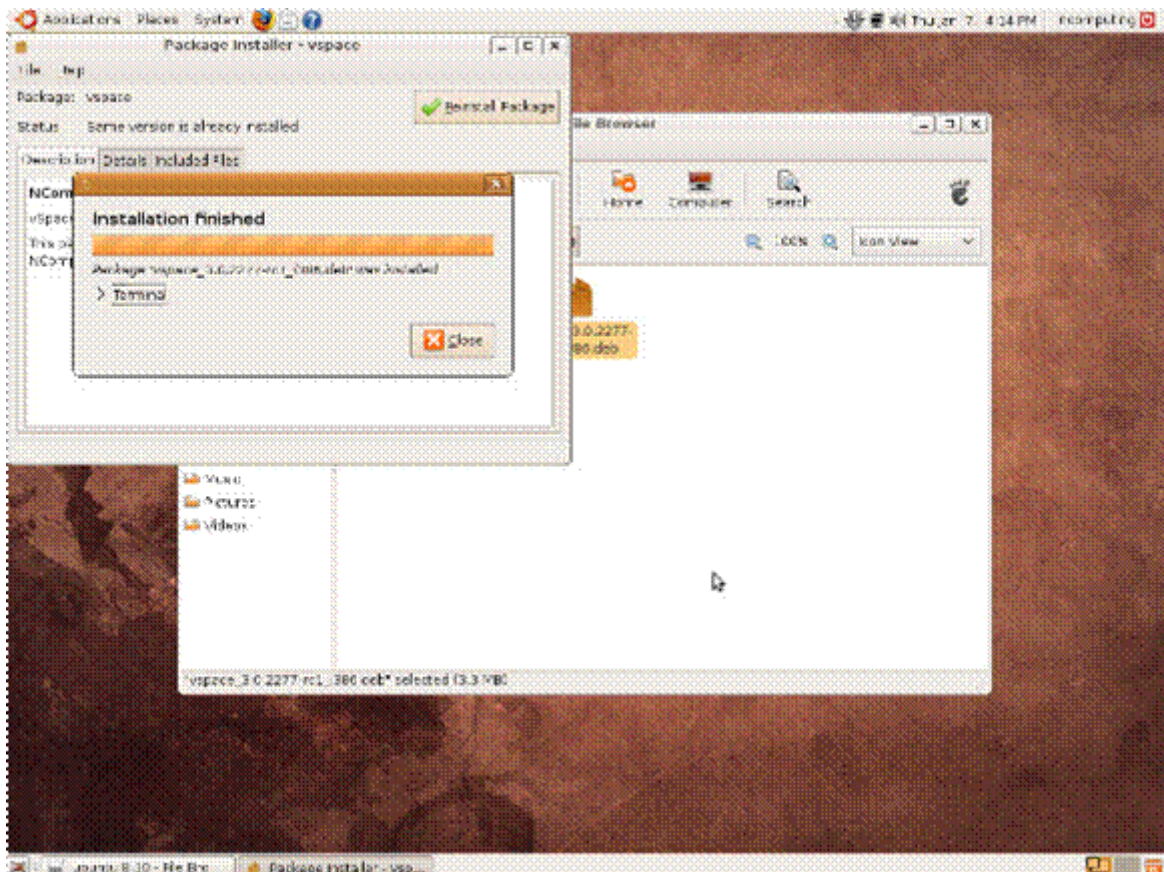

1. Download Desktop Edition; Ubuntu 8.10 em <http://releases.ubuntu.com/8.10/>
2. Realize a instalação do sistema Linux Ubuntu 8.10.
3. **Não realize a atualização automática do Linux Ubuntu 8.10.**
4. Faça o download do software Lseries_3.0.2511_i386.deb em www.multipos.com.br/downloads.php
5. Execute o vSpace:

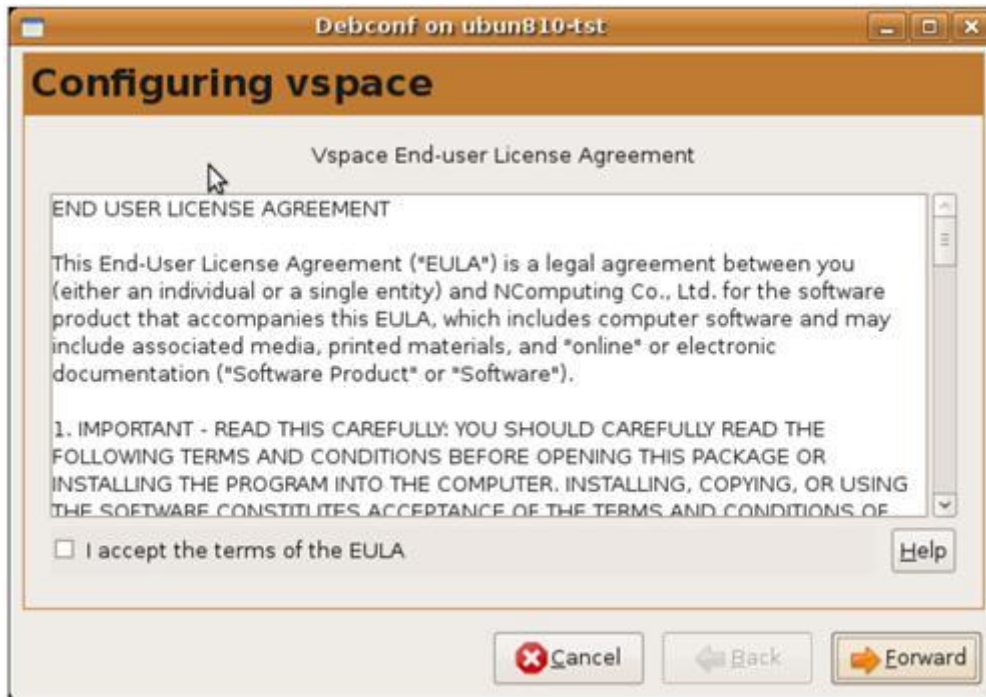

6. Inicie a instalação do pacote:

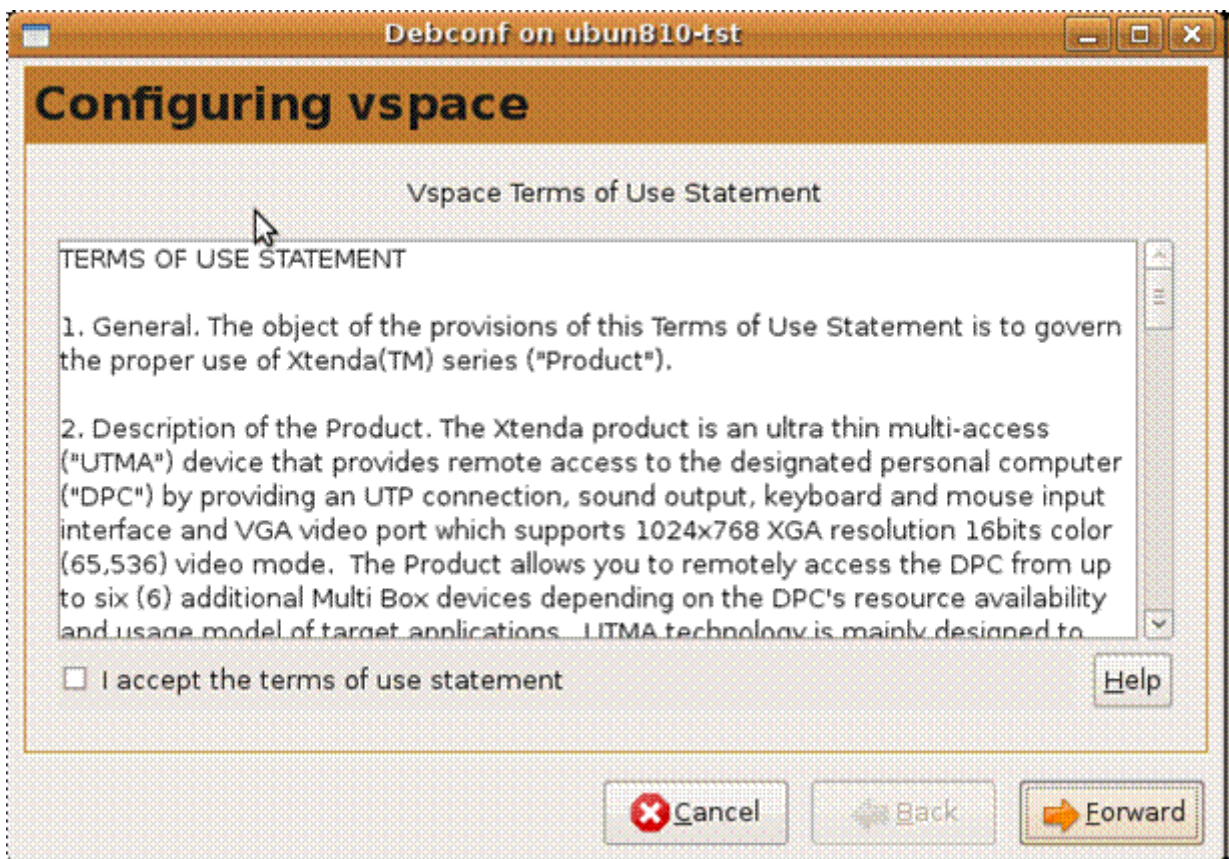

7. O gerenciador de pacotes irá iniciar a instalação do vSpace

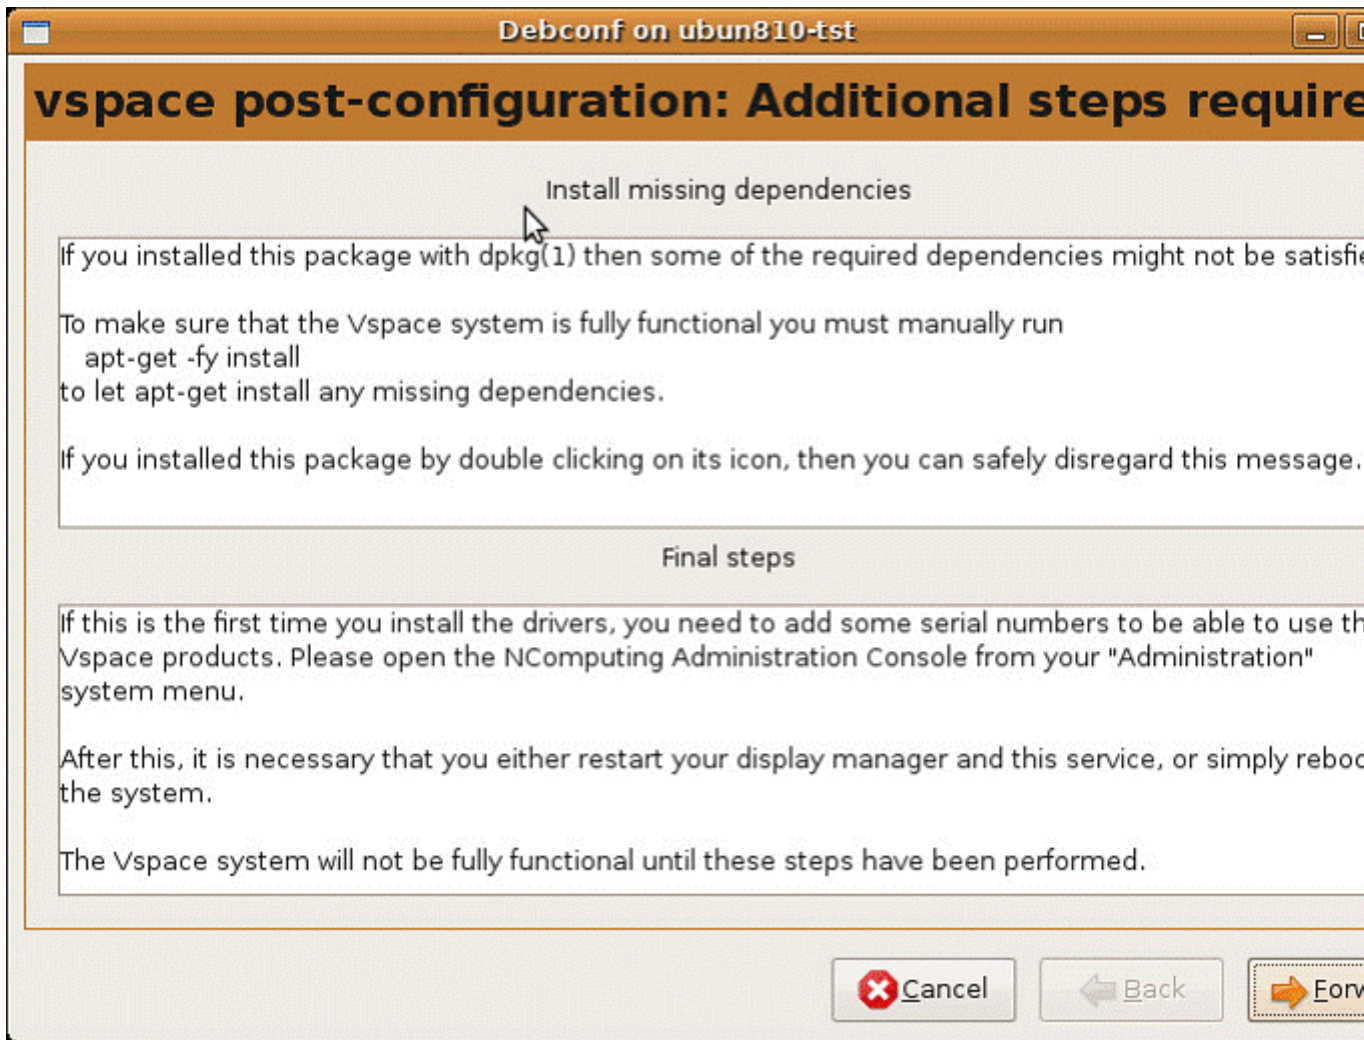

8. Aceite a Licença de utilização.

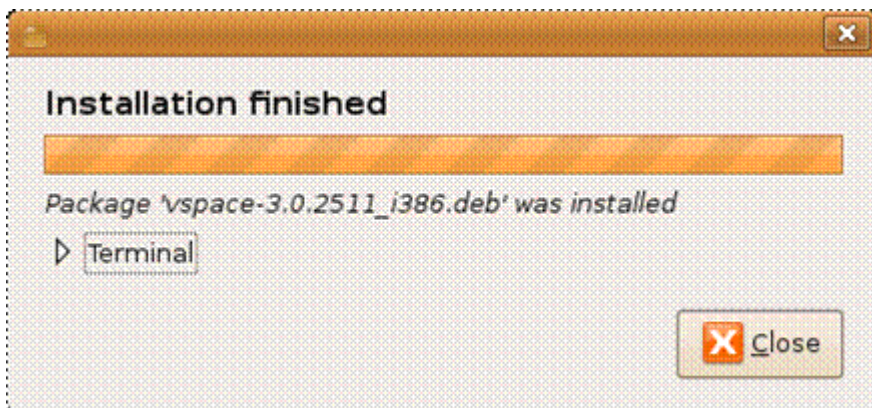

9. Aceite os termos de uso

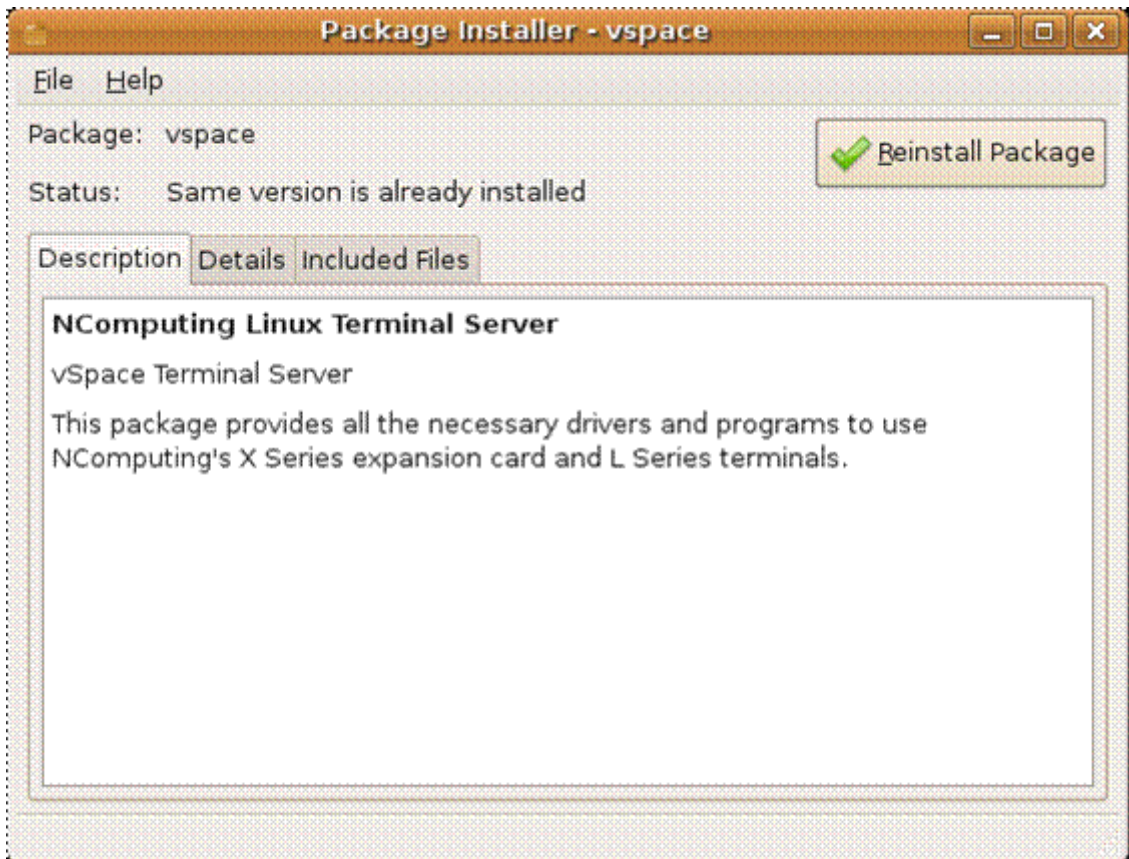

10. Continue a instalação clicando e FORWARD na tela de post install.

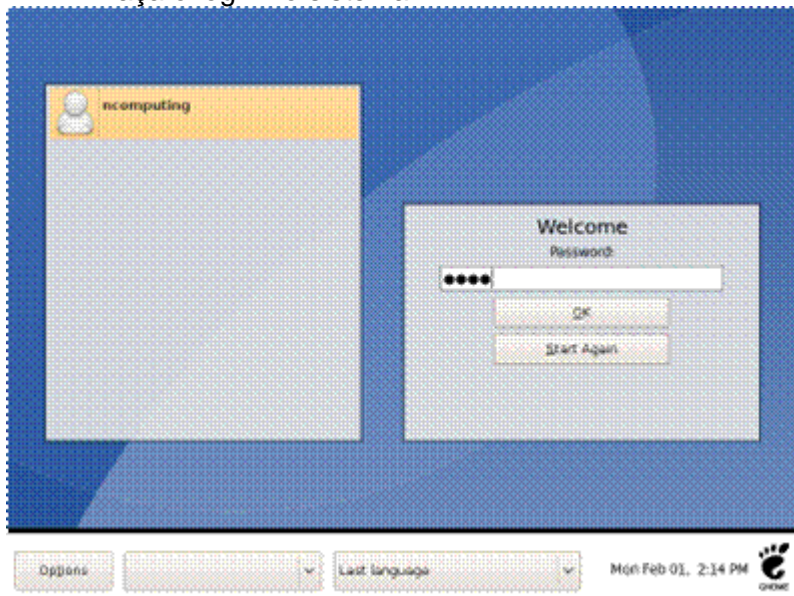

11. Após a conclusão da instalação, feche todas as janelas e reinicie o sistema.

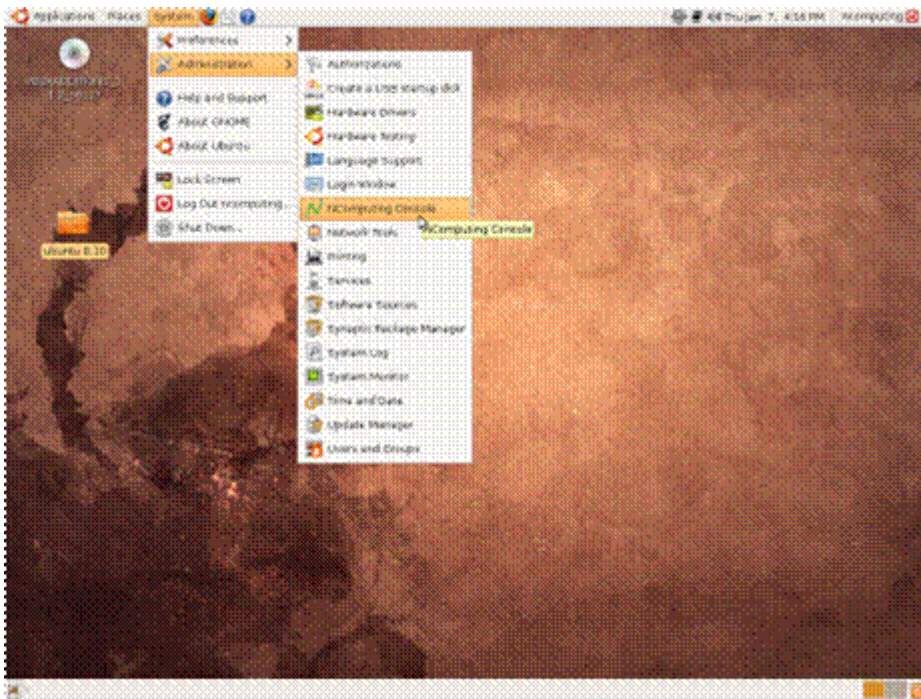

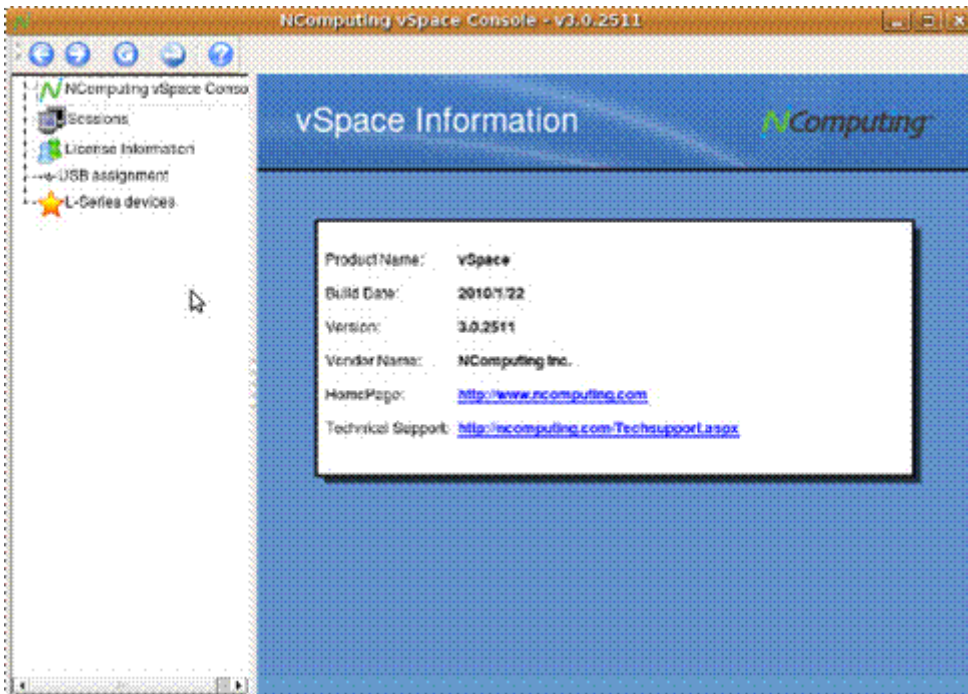

12. Faça o login no sistema

13. O console do vSpace pode ser encontrado em "System > Administration > NComputing Console"

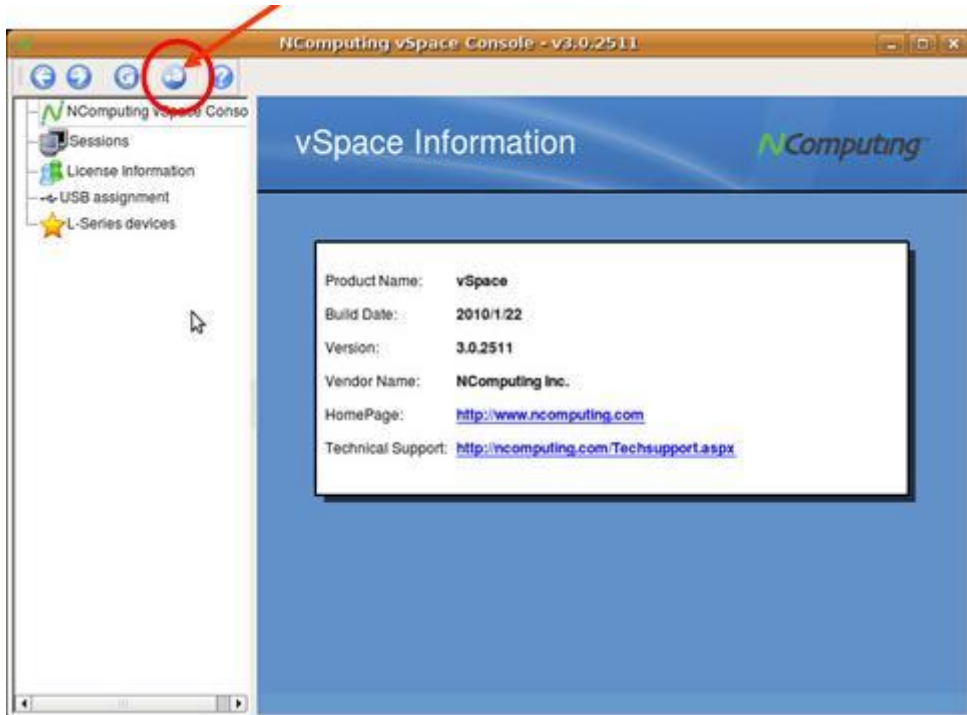

14. Tela inicial do Console do vSpace.

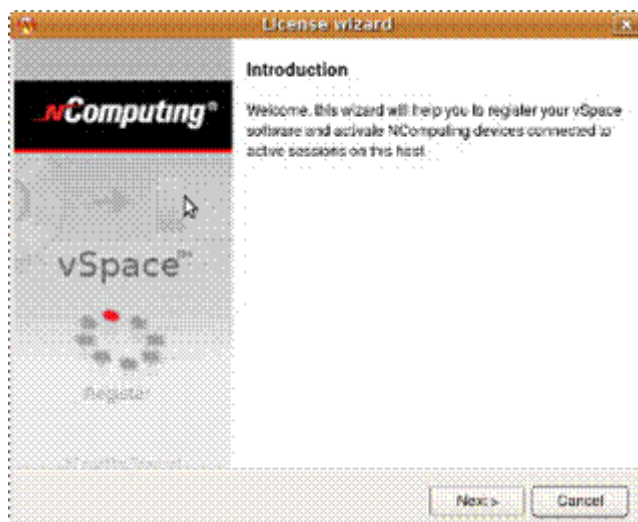

Registro do sistema:

É requerido o registro do sistema. Para isto, pressione o ícone de registro como mostrado a seguir:

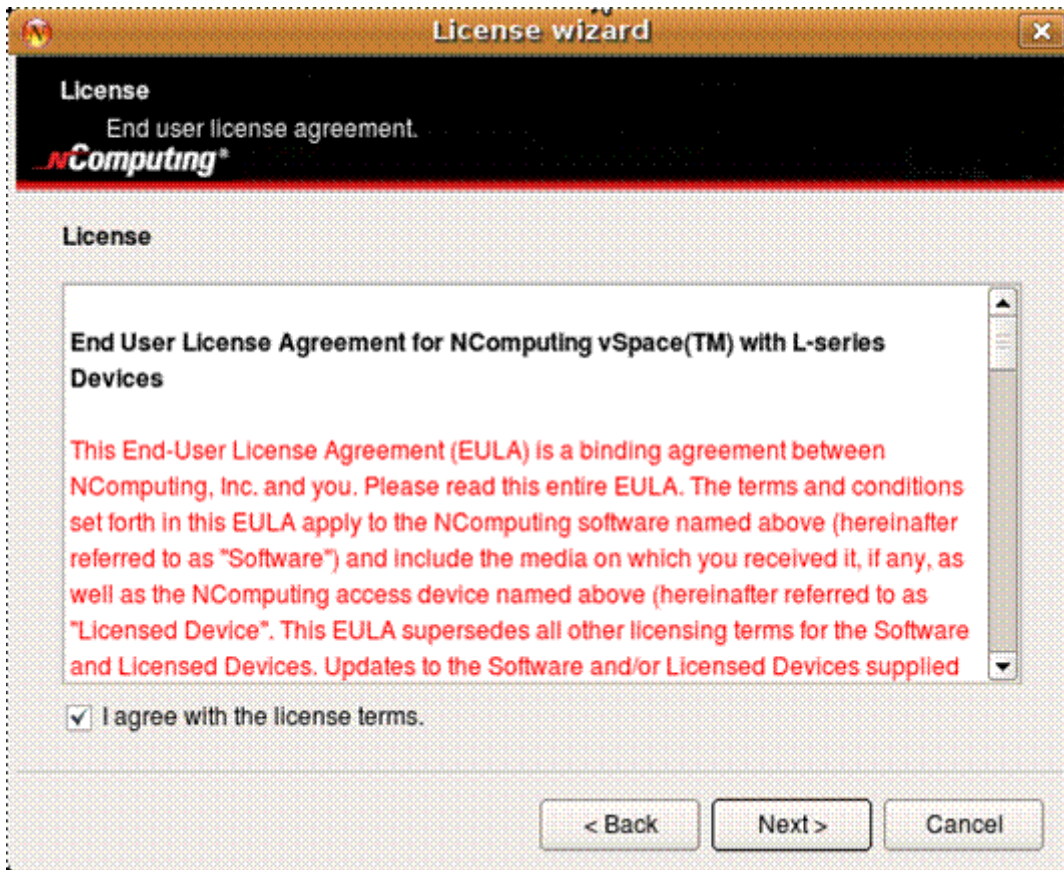

1. Iniciando o processo de registro

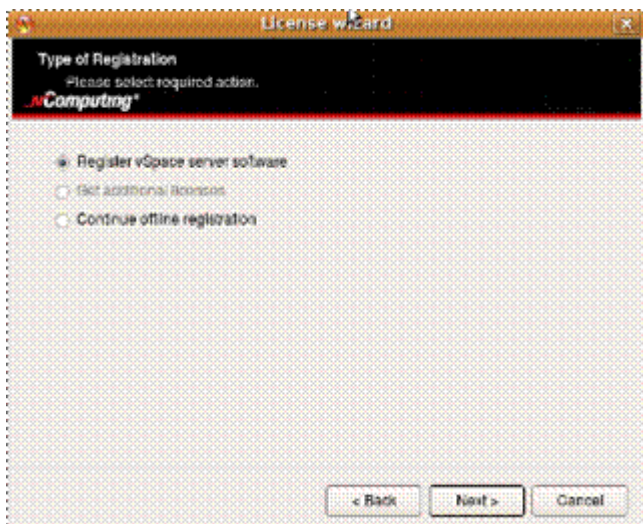

2. Cique em NEXT

3. Aceite o contrato de licenciamento

4. Escolha a forma de registro mais adequada a sua necessidade

5. Preencha os campos requeridos:

The screenshot shows the 'License wizard' dialog box with the 'Customer Data' step. The title bar reads 'License wizard'. Below the title bar, there is a black header with the text 'Customer Data' and 'Please fill in the missing information below. They are highlighted with a light red background.' The 'NComputing' logo is visible. The form contains the following fields:

- Name* (text input)
- Company* (text input)
- Country* (dropdown menu, currently showing 'United States of America')
- Address* (text input)
- City* (text input)
- State/Province* (text input)
- Zip* (text input)
- Email* (text input)
- Phone* (text input)
- Reseller/Dealer* (text input)
- Type of user* (dropdown menu, currently showing 'Other')

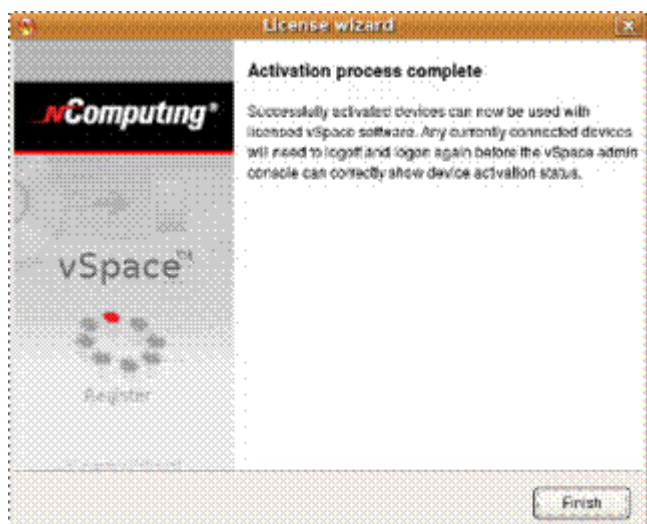

At the bottom of the dialog, there are three buttons: '< Back', 'Next >', and 'Cancel'.

6. De continuidade ao processo até a finalização. Não esqueça de ativar a funcionalidade de registro em background.

The screenshot shows the 'License wizard' dialog box with the 'Registration results' step. The title bar reads 'License wizard'. Below the title bar, there is a black header with the text 'Registration results' and 'The result page shows the passed or failed serial numbers.' The 'NComputing' logo is visible. The main content area contains a list of results:

1. Registered customer data.
2. vSpace software was registered with SN: LTSL [REDACTED]

At the bottom of the dialog, there is a button labeled 'Register future devices in the background.' which is circled in red. Below this button are three buttons: '< Back', 'Next >', and 'Cancel'.

Agora o sistema está preparado para interagir com os terminais da Serie L.
